Sarasota, Florida 34240

### **Form ADV Part 2A – Firm Brochure**

(919)922-5001

Dated June 7th, 2021

This Brochure provides information about the qualifications and business practices of Copilot Financial LLC, “CF”. If you have any questions about the contents of this Brochure, please contact us at (919)922-5001. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Copilot Financial LLC is registered as an Investment Adviser with the State of Florida. Registration of an Investment Adviser does not imply any level of skill or training.

Additional information about CF is available on the SEC’s website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov), which can be found using the firm’s identification number, 314634.

## Item 2: Material Changes

Since this is the first filing of the Form ADV Part 2A for CF, there is nothing to report. In the future, any material changes made during the year will be reported here.

# Item 4: Advisory Business

## Description of Advisory Firm

Copilot Financial LLC (hereinafter referred to as “CF”, “we”, “firm”, and “us”) became registered as an Investment Adviser with the State of Florida in 2021. Cornelius Stover is the principal owner of CF.

## Types of Advisory Services

### Investment Management Services

We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

### Project-Based Financial Planning Service

We provide project-based financial planning services on topics such as retirement planning, risk management, college savings, cash flow, debt management, work benefits, and estate and incapacity planning.

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

**Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.

**College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

**Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.

**Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

**Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.

**Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

**Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years

**Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").

### **Ongoing Financial Planning**

This service involves working one-on-one with a planner over an extended period of time. By utilizing Investment Management Services, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefits, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that

any agreed upon action steps have been carried out. On an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time.

### **Client Tailored Services and Client Imposed Restrictions**

We consult with clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the clients' investment and/or planning needs. We ensure that clients' investment and planning recommendations are suitable for their needs, goals, objectives, and risk tolerance.

Clients are able to specify, within reason, any limitations they would like to place on discretionary authority as it pertains to individual securities and/or sectors that will be traded in their account. All such requests must be provided to CF in writing. CF will notify Clients if they are unable to accommodate any requests.

### **Wrap Fee Programs**

We do not participate in wrap fee programs.

### **Assets under Management**

Because CF is a new entity, it currently reports no discretionary or non-discretionary Assets Under Management. Assets Under Management were calculated as of April, 2021.

## **Item 5: Fees and Compensation**

Please note, unless a Client has received this brochure at least 48 hours prior to signing an investment advisory and/or a Financial Planning Agreement (collectively, "Client Contract"), the Client Contract may be terminated by the Client within five (5) business days of signing the Client Contract without incurring any fees. How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Client Contract for more detailed information regarding the exact fees you will be paying.

### **Investment Management Services**

Our standard advisory fee is based on the market value of the assets under management and is calculated as follows:

<b>Account Value</b>	<b>Annual Advisory Fee</b>
<b>\$0 - \$500,000</b>	1.20%
<b>\$500,001 - \$1,000,000</b>	1.00%
<b>\$1,000,001 - \$2,000,000</b>	0.85%
<b>\$2,000,001 - \$3,000,000</b>	0.70%
<b>\$3,000,001 and Above</b>	0.60%

The annual fees are negotiable and are prorated and paid in arrears on a monthly basis. The advisory fee is a blended fee and is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart resulting in a combined weighted fee. For example, an account valued at \$2,000,000 would pay an effective fee of 0.975% with the annual fee of \$19,500. The monthly fee is determined by the following

calculation:  $((\$500,000 \times 1.2\%) + (\$500,000 \times 1.00\%) + (\$1,000,000 \times 0.85\%)) \div 12 = \$1,625$ . No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees are directly debited from Client accounts, or the Client may choose to pay by check. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

### **Ongoing and Project Based Financial Planning**

Ongoing and Project Based Financial Planning will be included without an additional fee for Clients utilizing our Investment Management Services.

### **Other Types of Fees and Expenses**

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

## **Item 6: Performance-Based Fees and Side-By-Side Management**

We do not offer performance-based fees and do not engage in side-by-side management.

## **Item 7: Types of Clients**

We provide financial planning and portfolio management services to families (single & dual-income), career/job changers, young professionals, high net-worth individuals/families, business owners (with 0 - 10 employees), pension and profit sharing plans, and charitable organizations.

We do not have a minimum account size requirement.

# Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Our primary investment strategies are Modern Portfolio Theory and Passive Investment Management.

## **Modern Portfolio Theory**

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

## **Passive Investment Management**

We primarily practice passive investment management. Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

## **Material Risks Involved**

**All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear.** Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

**Market Risk:** Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

**Strategy Risk:** The Adviser's investment strategies and/or investment techniques may not work as intended.

**Small and Medium Cap Company Risk:** Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client’s portfolio.

**Legal or Legislative Risk:** Legislative changes or Court rulings may impact the value of investments, or the securities’ claim on the issuer’s assets and finances.

### **Risks Associated with Securities**

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

**Common stocks** may go up and down in price quite dramatically, and in the event of an issuer’s bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

**Exchange Traded Funds** prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF’s shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF’s shares may be halted if the listing exchange’s officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide “circuit breakers” (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

**Mutual Funds:** When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

## **Item 9: Disciplinary Information**

### **Criminal or Civil Actions**

CF and its management have not been involved in any criminal or civil action.

### **Administrative Enforcement Proceedings**

CF and its management have not been involved in administrative enforcement proceedings.

### **Self-Regulatory Organization Enforcement Proceedings**

CF and its management have not been involved in legal or disciplinary events that are material to a Client’s or prospective Client’s evaluation of CF or the integrity of its management.

## Item 10: Other Financial Industry Activities and Affiliations

No CF employee is registered, or has an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No CF employee is registered, or has an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

CF does not have any related parties. As a result, we do not have a relationship with any related parties.

CF only receives compensation directly from Clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Cornelius Stover is currently a licensed insurance agent, however, he no longer sells any insurance products, and is not affiliated with any insurance companies. Cornelius Stover will not sell any insurance products to clients or prospective clients of CF.

### **Recommendations or Selections of Other Investment Advisers**

CF does not recommend Clients to TAMPs to manage their accounts.

## Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

### **Code of Ethics Description**

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.
- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.

- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matters shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

### **Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest**

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

### **Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest**

Our firm and its “related persons” may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates’ transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

### **Trading Securities At/Around the Same Time as Client’s Securities**

From time to time, our firm or its “related persons” may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of CF to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, CF will never engage in trading that operates to the client’s disadvantage if representatives of CF buy or sell securities at or around the same time as clients.

## **Item 12: Brokerage Practices**

### **Factors Used to Select Custodians and/or Broker-Dealers**

Copilot Financial LLC does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

In recommending broker-dealers, we have an obligation to seek the “best execution” of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the broker-dealer’s services. The factors we consider when evaluating a broker-dealer for best execution include, without limitation, the broker-dealer’s:

- Execution capability;
- Commission rate;

- Financial responsibility;
- Responsiveness and customer service;
- Custodian capabilities;
- Research services/ancillary brokerage services provided; and
- Any other factors that we consider relevant.

With this in consideration, our firm recommends Charles Schwab & Co., Inc. (“Schwab”), an independent and unaffiliated SEC registered broker-dealer firm and member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). Although clients may request us to use a broker-dealer of their choosing, we generally recommend that clients open brokerage accounts with Schwab. We are not affiliated with Schwab. The Client will ultimately make the final decision of the Custodian to be used to hold the Client’s investments by signing the selected broker-dealer’s account opening documentation.

### **1. Research and Other Soft-Dollar Benefits**

Our qualified custodian(s) used for investment management may provide us with certain brokerage and research products and services that qualify as “brokerage or research services” under Section 28(e) of the Securities Exchange Act of 1934 (“Exchange Act”). This is commonly referred to as a “soft dollar” arrangement. These research products and/or services will assist us in our investment decision making process. Such research generally will be used to service all of our client accounts, but brokerage charges paid by the client may be used to pay for research that is not used in managing that specific client’s account.

### **2. Brokerage for Client Referrals**

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

### **3. Clients Directing Which Broker/Dealer/Custodian to Use**

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transactions and this may cost Clients money over using a lower-cost custodian.

## **The Custodian and Brokers We Use (Charles Schwab)**

The custodian and brokers we use maintain custody of your assets that we manage, although we may be deemed to have limited custody of your assets due to our ability to withdraw fees from your account (see Item 15 – Custody, below).

**Your brokerage and custody costs:** For our clients’ accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees. Schwab is also compensated by earning interest on the uninvested cash in your account in Schwab’s Cash Features Program.

**Products and services available to us from Schwab:** Schwab Advisor Services is Schwab’s business serving independent investment advisory firms like us. They provide our clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our clients’ accounts, while others help us manage and grow our business. Schwab’s support services are generally available on an unsolicited basis (we don’t have to request them) and at no charge to us. Following is a more detailed description of Schwab’s support services:

**Services that benefit you:** Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab’s services described in this paragraph generally benefit you and your account.

**Services that may not directly benefit you:** Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our clients’ accounts. They include investment research, both Schwab’s own and that of third parties. We may use this research to service all or a substantial number of our clients’ accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- provide access to client account data (such as duplicate trade confirmations and account statements)
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- provide pricing and other market data
- facilitate payment of our fees from our clients’ accounts
- assist with back-office functions, recordkeeping, and client reporting

**Services that generally benefit only us:** Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events
- Consulting on technology, compliance, legal, and business needs
- Publications and conferences on practice management and business succession do not require that you maintain your account with Schwab, based on our interest in receiving Schwab’s services that benefit our business and Schwab’s payment for services for which we would otherwise have to pay rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Schwab as custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab’s services (see “How we select brokers/ custodians”) and not Schwab’s services that benefit only us.

## **Aggregating (Block) Trading for Multiple Client Accounts**

Investment advisers may elect to purchase or sell the same securities for several clients at approximately the same time when they believe such action may prove advantageous to clients. This process is referred to as aggregating orders, batch trading or block trading. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy to implement all client orders on an individual basis. Therefore, we do not aggregate or “block” client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

## Item 13: Review of Accounts

Cornelius Stover, Owner and CCO of CF, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services. CF does not provide specific reports to financial planning Clients, other than financial plans.

Client accounts with the Investment Advisory Service will be reviewed regularly on a semi-annual basis by Cornelius Stover, Owner and CCO. The account is reviewed with regards to the Client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

CF will provide written reports to Investment Advisory Clients on an annual basis. We urge Clients to compare these reports against the account statements they receive from their custodian.

## Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

## Item 15: Custody

CF does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which CF directly debits their advisory fee:

- i. CF will send a copy of its invoice to the custodian at the same time that it sends the Client a copy.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The Client will provide written authorization to CF, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

## Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, we maintain discretion over Client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the Client.

## Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

## Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

## Item 19: Requirements for State-Registered Advisers

### **Cornelius Stover**

Born: 1992

### **Educational Background**

- 2014 – BS In Biology, East Carolina University

### **Business Experience**
